Commercial Property & Liability Program

In The Business Of Protecting Businesses

Whether you're a restaurant entrepreneur, property owner, manufacturer or a neighborhood retailer, you've worked hard to build and grow your business. You need the best insurance possible to safeguard it from the risks encountered in your day-to-day operations.

That's why you need protection from the company that knows the ins and outs of commercial property and liability insurance like nobody else. With years of experience and knowledge gained from serving small to mid-sized main street businesses throughout New York, New Jersey, Pennsylvania and Connecticut, we can offer the right insurance products and services to help your business thrive.

Big Protection For Your Small To Mid-Sized Business

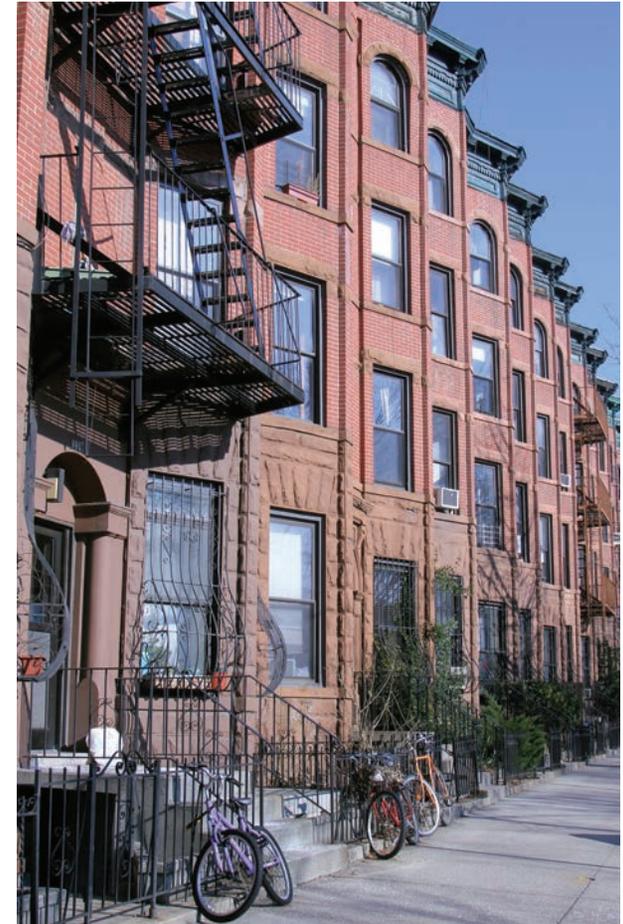

By providing the security you need at a great price, we help you focus on what's important to you — your business. With multiple options to choose from, it's easy to find the right blend of insurance products to keep your business running smoothly.

COMMERCIAL PACKAGE POLICY (CPP)

A Commercial Package Policy (CPP) allows you to combine several individual coverages into a single policy. It's flexible, so you can pick and choose the coverages you need to properly protect your business.

PROPERTY

Property coverage is a necessity for any business. It safeguards the property your business owns and leases, such as furniture, equipment, inventory and fixtures against loss or damage when a fire, theft or another type of disaster strikes.

GENERAL LIABILITY

In the course of doing business, anything can happen. You need to be prepared to defend yourself from lawsuits and protect your company's assets. General liability insurance policies cover you and your business from claims of bodily injury, property damage, and negligence related to your products, services or operations.

Please contact us for a list of available products and coverages by state.
